

LCP BREAKFAST BRIEFING (WITH JAPANESE INTERPRETATION)

# *UK pension scheme management for Japanese multinationals*

For Japanese companies operating in the UK, the pensions system can be difficult to understand. To help you fulfil your obligations, we run an annual event to help you understand the complexity and focus on the most important actions for the year ahead.

This year's seminar will:

- Help you understand the risks being run in your UK Defined Benefit (DB) scheme;
- Give you the tools you need to identify what de-risking opportunities you have to effectively manage this risk, including insurance solutions and benefit choices you can give members, and...
- Give you the information you need to take these options forward successfully within your company;
- Use client case studies to demonstrate how similar plans have successfully managed their risks.
